OZON GENERATOR

www.yenikazanciklima.com

WHAT DOES AN OZONE GENERATOR DO?

The sterilizing power of ozone gas can be used against all unwanted bacteria, viruses, microbes, fungi, molds, household mites, insects and flies, odors and unwanted indoor weather conditions. It is more effective and also an environmentally friendly cleaner compared to harmful chemicals. Sterilization with ozone all pests that cause unwanted, disease and bad smell in both water and air are destroyed.

Ideal for home, workplace, hotel rooms, schools, gym, playgrounds, vehicle disinfection, movie theaters, Cafe, Restaurant, Restaurant, gas stations, store, dressing Booth up to 100-200-400m². It destroys unpleasant odors, pests such as bacteria, viruses, microbes, household, mold, fungi quickly and without leaving any residue. It does not leave any chemicals, there is no need for consumables.

WHAT IS OZONE?

Ozone is a chemical compound (O₃) consisting of three oxygen atoms. 2 of two-atom normal atmospheric oxygen (O₂) is something that carries very high energy. Ozone gas is the most powerful and fast disinfection substance known. (O₃) a closed environment formed by the breakdown and reunion of oxygen molecules into atoms plays an important role in improving air quality. The only oxygen atoms in the Environment Ozone, as it is very reactive, destroy or reduce (O₂) to a minimum amount by occluding hundreds of microorganisms, chemicals, gases, bacteria, mold, fungus and allergens that could pose a problem for human health in the terraced environment.

It destroys every conceivable smell in a very short time. Thanks to its very strong oxidizing and very effective disinfecting properties, it is used as a germ killer in treatment and food production facilities that provide drinking water worldwide. It is also used in the treatment of many diseases and anti-aging practices all over the world. OZONE IS THE MOST EFFECTIVE DISINFECTANT KNOWN.

Ozone shows a disinfecting effect about 3125 times faster than chlorine the effect of ozone is instantaneous, cannot be stored. It converts to oxygen, leaves no waste. Ozone is environmentally friendly, reduces pest population. Ozone destroys all micro-organisms, viruses, allergens, bacteria, mold, fungi and prevents their formation. Ozone eliminates waste that is equivalent to chemicals.

Are any chemicals used when manufacturing ozone with ozone generator?

No, the ozone generator is not chemical. It produces ozone naturally. Oxygen molecules in the air are separated from one another using electricity, and soon ozone molecules are formed. However, because these ozone molecules are formed with a weak bond, they become oxygen again after breaking the fragrance molecules.

Product Instructions for use and Considerations:

- Product operating Current: Glass fuse rating above 220V/50Hz 3Amps
- To switch on the appliance, put the mains plug in the wall socket and press the on/off button to switch on the appliance. Do not forget to unplug the mains when you are not using the ozone generator.
- Do not remain in the environment for long periods of time unless you are venting during operation.
- It is necessary to ventilate up to 1/3% of the time the appliance is in an indoor area.
- Never operate the appliance during sleep.
- Direct inhalation of ozone gas can cause irritation and damage to your respiratory system.
- In order to avoid damage to the device, its absence in humid, humid environments and its protection from hard impacts will ensure long-lasting use of the product.
- Device TV, computer, etc. operate at a minimum distance of 3m from the display devices that create an electromagnetic field. Can interact with devices with magnetic media
- Do not cover the front and back surfaces with any objects to prevent airflow during the operation of the device.
- According to the operating conditions of your device, it is recommended to clean the dust and Thrush accumulated on the inside of the suction and blowing grills located on the front and back about 1 time a month with the help of a vacuum cleaner.

WHEN YOU WANT TO GET INFORMATION ABOUT THE PRODUCT, YOU CAN CONTACT US ON THE PHONE NUMBER 0850 840 09 09.
